<b>Conducted by:-</b>	Depts of Physics, Chemistry and Mathematics
<b>Date:-</b>	January 29,2022
<b>Venue:-</b>	Online Google meet
<b>Report:-</b>	<p>Although the need for interdisciplinary research appears to be contemporary, its importance is not new. Any real time scientific issue requires interdisciplinary/ multidisciplinary approach. Therefore, instead of employing the tools of a particular discipline to decode a scientific problem, it is widely beneficial to have knowledge and expertise across various spheres of learning. Moreover, the multidisciplinary approach tackles the non linear nature of the scientific issues.</p> <p>With the above theme, a one day national Conference on “<b>Recent Trends in Interdisciplinary Research in Basic Sciences</b>” was organised jointly by the departments of Physics, Chemistry and Mathematics in association with IQAC on January 8,2022. The conference was organised through online mode The convener of this conference was Dr. Jayanta K. Behera, Co-ordinator of B.Sc. program. It was designed to cater to the demand for interdisciplinary/less adopted approach for fulfilling the contemporary scientific needs.</p> <p>The chief guest of this conference was <b>Dr.Alok Prasad</b> .</p>

Cherry Taha's presentation

- Infringement of GIs is an issue which is still generating controversies and the outcome of such controversies are extremely important from the point of view of a developing country like India which has in its possession of number of world famous Geographical Indications.
- Finally the need of the hour is that the Government of India should create awareness to rural producers regarding registration of GIs so that their products will be marketed globally it will generate huge foreign exchange to exchequer.

## CONCLUSION:

- Intellectual property is an integral part of international trade. Since an intelligent and effective use of knowledge always contributes in the national economic prosperity. Given its commercial potential, the legal protection of GI assumes economic significance.
- Without such protection, competitors not having legitimate right on a GI might ride free on its reputation. Such unfair business practices result in loss of revenue for the genuine right holders of the GI and also misleads the consumers. Moreover, such practices may adversely hamper the goodwill and reputation associated with the GI.
- In order to rule out its misuse and to tap the potential economic and socio-economic benefits emanating from the GI, it is essential to ensure an appropriate legal protection for GIs at the national as well as the international level.

The resource person for the webinar is <b>Dr. Pradiptarathi Panda</b>. The event began with a formal introduction of the Guest Speaker by Ms. Akansha Gonsalvi.</p> <p style="text-align: center;"><b>A discussion of the benefits</b></p>

and obstacles of authoring a paper for a nursing journal is followed by an explanation of the process of writing for publication. Benefits include advancing nursing knowledge and professional recognition of the individual author. The barriers addressed are time, failure to recognize expertise, a reluctance to subject one's work and ideas to the public arena for

scrutiny, and lack of confidence with scholarly writing. The discussion focuses on choosing a suitable journal and subject, the role of the editor and peer reviewers in a refereed journal, and a procedure for planning, writing, and editing a paper.

## Research?

The search for knowledge through objective and systematic method of finding solution to a problem is research.

As such the term 'research' refers to the systematic method consisting of enunciating the problem, formulating a hypothesis, collecting the facts or data, analysing the facts and reaching certain conclusions either in the form of solutions(s) towards the concerned problem or in certain generalisations for some theoretical formulation.

## Motivation in Research

- Desire to get a research degree along with its consequential benefits;
- Desire to face the challenge in solving the unsolved problems, i.e., concern over practical problems initiates research;
- Desire to get intellectual joy of doing some creative work;
- Desire to be of service to society;
- Desire to get respectability.

 Topic Selection

- Choosing your topic is the first step in the research process. It is also the most important step. A good topic may not be easy to find, but it must be narrow and focused enough to be interesting, yet broad enough to find adequate information.
- Pick a topic that interests you. You are going to live with this topic for weeks while you research, read, and write your assignment. Choose something that will hold your interest and that you might even be excited about. Your attitude towards your topic will come across in your writing or presentation! The research process is more fun when you care about your topic.
